HARTFORD, KY., WEDNESDAY, OCTOBER 24, 1900.

NO. 43

"I am the mother of four children," writes Mrs. Ruphemia Falconer, of Trent, Muskegon Co., Mich. "My first two babies were still-born, and I suffered every thing but death. My friends all thought I could never recover. I was reduced to 100 pounds. When I was taken with hemorrhage or flooding and came near having a miscarriage from female weakness. For two months I was under the care of our doctor, but was getting weaker all the time until one day I happened to come across one of your little books and I read it through, and the next day I sent and got three bottles of 'Pavorite Prescription' and one bottle of 'Pelleta.' I improved so fast I sontinued to take your medicine antil baby was born, and he is healthy and all right. My health has been good ever since. I now weigh 165 pounds."

47 Mr. Bryan's speech, as he was anxions 39 to set at rest any doubts which Mr. 27 Bryan's speech may have created in the minds of any of the students. The first 01 question was:

"What are you going to do for mar-76 kets when you have killed off all the 99 Filipinos?"

"My friend," Mr. Depew retorted sharply, "we aren't killing them off. 85 The war is practically ended. There is 46 but a small band of brigands, 1,000 in number, perhaps, following close on Aguinaldo's heels and holding out as 55 long as possible in the hope of Bryan's election. Not more than 1.000."

"Then tell us why it requires 60,000 McKinley's plurality 598,924. These American troops to subdue only a palignies are unofficial in some important try 1,000 Filipinos?" was the second ases. The vote for Bryan and Sewell question. Mr. Depew collapsed. He and that for Bryan and Watson are paused awhile, as if at a loss what to say next, and then fell back on that pet argument of the Republican spell-False teeth will do to eat with, but binders—McKinley prosperity and a full

Stung by a Centipede.

Mrs. Thos. Saunders, Bluffton, Tex. was stung by a centipede. A doctor was sent for, but before he arrived some sensible friend wet a piece of brown pa-per with Morley's Wonderful Eight and applied it to the wound. The doctor said his services were not needed, for David Hodges, of Blodgett's Mills, N. the poison was neutralized or killed by Y., reports that last year he kept 115 the Wonderful Eight. In some cases the external signs of Contagious Blood Poison are so slight that the victim is firmly within the grasp of the monster before the true nature of the disease is known. In other cases the blood is quickly filled with this poisonous virus and the swollen glands, mucus patches in the mouth, sores on scale, ulcers on tongue, sore throat, eruptions on skin, copper colored splotches, and falling hair and eyebrows

Leave no room for doubt, as these are all unmistakable signs of Contagious Blood Poison.

Doctors still prescribe mercury and potash as the only cure for Blood Poison. They drive the disease back into the system, cover it up for a while, but it breaks out again in worse form. These powerful minerals produce mercurial rheumatism and the most offensive sores and ulcers, causing the joints to stiffen and finger nails to drop off. Mercury and potash make wrecks, not cures, and those who have been dosed with these drugs are never after free from aches and pain.

S. S. acts in an entirely different manner, being a purely vegetable remedy; it forces the poison out of the system, and instead of tearing down, builds up and invigorates the general health. S. S. S. is the only antidote for this specific virus, and therefore the only cure for Contagious Blood Poison. No matter in what stage or how hopeless the case may appear, even though pronounced incurable by the doctors, S. S. S. can be relied upon to make a rapid, permanent cure. S. S. S. is not a new, untried remedy; an experience of nearly fifty years has proven it a sure and unfailing cure for this disease. It is the only purely vegetable blood medicine known.
